

Don't have access to a printer? No problem.
Follow the instructions below to make your own flag.

Take a piece of paper or material around the size of an A4 piece of paper (21cm x 29cm), it doesn't have to be exact

Fold the top of the paper down by around 2cm or two finger widths

Fold the top strip down

Keep the folded part at the top and fold the paper in the middle / lengthways

Draw a line from the bottom left corner to the top right corner.

Cut along the line

Your flag will be on the left, open it up. You will have two smaller triangles to recycle.

Start decorating your flag!
Leave one side of the top strip blank as it will be folded over to secure your flag.

What to do:

Decorate your flag thinking about a place you love. Your place could be a country, a city, your home, a park, or a comfy spot on the sofa.

Let us know the name of the place you love.

You can draw, write, stick things to, cut shapes out of, paint, fold, scribble and doodle on this paper flag **OR** make your own flag out of whatever material you like using this as a template.

You can decorate both sides.

I'm done, what now?

Bring your flag to our free craft **Summer Festival** where we will be hanging the flags everyone has made throughout the building.

The Summer Festival is on the 10th to 12th June at Cockpit Bloomsbury (WC1N) and the 17th to 19th June at Cockpit Deptford (SE8). Follow the bunting flags throughout the building and see what places other people love. There will be workshops on site at both events if you want to make more.
