THE COCKPIT EFFECT 2024

Cockpit is a centre of excellence in contemporary craft.

Encompassing a wide range of craft disciplines, Cockpit makers are united by their extraordinary skill and imagination.

Our mission is to equip makers to succeed on their own terms, creatively and commercially, and we provide studio space, business advice, coaching and public events such as Open Studios.

Makers at Cockpit are selected for excellence in craft skill, originality of creative voice and ambition to succeed professionally.

A charity and UK top 100 social enterprise, Cockpit gives makers tools to build their businesses so they can focus on what they do best: making.

As the only incubator for craft talent anywhere, all our places are subsidised and each year we generate more than £300,000 to support 30+ makers with funded places.

THE COCKPIT EFFECT 2024 report gives an insight into the impact that our support makes.

In 2023 we were honoured to be recognised by Social Enterprise UK (SEUK), winning the Prove It: Social Impact Award

This year's report looks at makers' financial data from 2021/22 and 2022/23.
